

Healthy Investment  
Central Eastern Europe

# HICEE

## Project Introduction

Project coordinator: EIT Health

# HICEE Synopsis

Project funded by the European Union, aiming to **boost Investments in Central and Eastern Europe (CEE)**

- Kick-Off: November 2023, Budapest
- End date: November 2025

## Objectives:

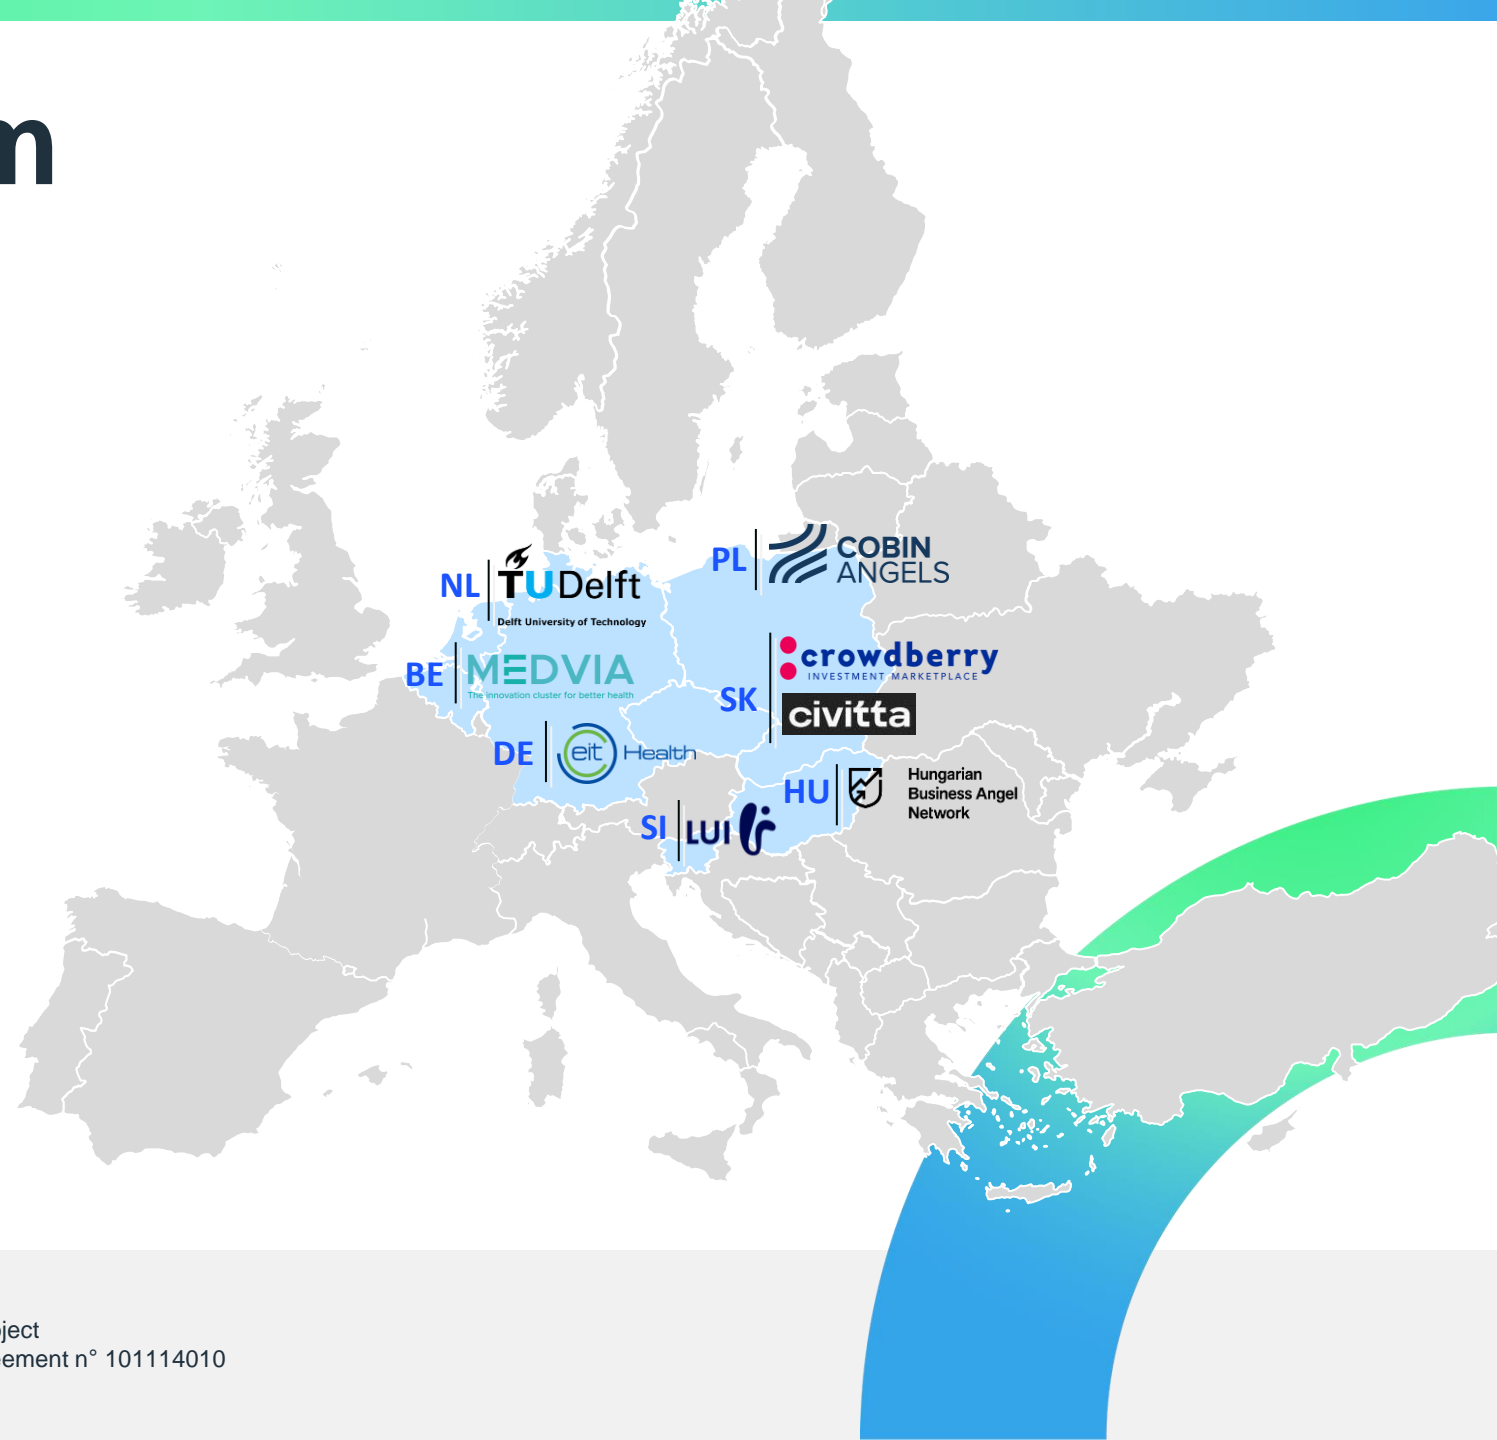

- Building robust and sustainable early-stage investment ecosystems.
- Increasing venture investments by cultivating local investment and attracting foreign investors.
- Providing de-risking and investment readiness support.
- Disseminating and implementing project outcomes to mitigate EU market fragmentation and support cross-border investments.

# HICEE Consortium

European Commission funded (€1.3m+ Grant)

These Partners are able to pull in their equivalents from the CEE Region:

- Universities
- Business Angels Networks
- Crowd Funding Platforms
- Healthcare Clusters
- Consulting Firms

**Innovations AB**

# HICEE Call for Start-ups

EIT Health has announced the **HICEE Call for Start-ups**, open until **July 10th, 2024**. This programme is looking for promising ventures in life sciences such as **biotech, medtech, and digital health**. Up to 25 ventures, including both **early-stage start-ups** (pre-seed or seed) and **local rising stars** (Series A and beyond), will be selected for extensive training. Selected start-ups will receive tailored **investment readiness support** to make them attractive co-investment targets, connecting them with a wider investor community and creating opportunities to extend their runways.

**Unlock your  
investment potential**  
with the HICEE Project!

**APPLY NOW** 

# Thank you
