

MY ERC GRANT STORY

Michal Smetana

Grant: ERC Starting Grant (submitted 10/2023, start 01/2025)

Project: Microfoundations of Collective Defence (MICROCODE)

ERC panel: Institutions, Governance and Legal Systems (SH2)

Host Institution: Charles University (Experimental Lab for International Security Studies/Peace Research Center Prague, Institute of International Studies, Faculty of Social Sciences)

ERC funding: 1.5 million euro for 5 years

Principal investigator: Michal Smetana

Team: PI + 3 postdocs + 1 PhD student + 1 project administrator

THEORETICAL FRAMEWORK

- WP1 - only
- WP1 + WP2 + WP3

PI	Senior Staff	Postdocs	Students	Other Personnel costs	A.Total personnel costs/€	B. Subcontracting Costs/€ (No indirect costs)	C.1 Travel and subsistence	C.2 Equipment - including major equipment	Consumables incl. fieldwork and animal costs	Publications (incl. Open Access fees) and dissemination	Other additional direct costs	C.3 Total other goods, works and services	Total Purchase costs/€	D. Internally invoiced goods and services/€ (No indirect costs)	E. Indirect Cost/€	Total Eligible Costs
241500	0	256500	147000	105000	750000.00	0	50000	0	350000	42000	8000	400000.00	450000.00	0	300000.00	1500000.00

Budget

ERC journey from September 2022 until today

- ✓ September–November 2022: Getting some general information about the ERC grants & thinking about possible ideas for the project
- ✓ December 2022: First ELISS lab brainstorming sessions (three very different ideas about the possible direction)
- ✓ January–February 2023: More focused brainstorming sessions, decision on the (general) thematic focus
- ✓ March 1, 2023: First contact w/ the FSV UK & RUK about my intention to submit ERC
- ✓ March 6, 2023: First version of the abstract submitted to RUK
- ✓ March 22, 2023: Feedback (quite critical!) on my abstract from RUK
- ✓ March 23, 2023: Feedback (also quite critical!) on my abstract at the PRCP research seminar
- ✓ March 28, 2023: Revised abstract submitted to TC workshops
- ✓ May 17, 2023: First TC Workshop, feedback on my abstract (unsurprisingly, still rather critical)
- ✓ June 23, 2023: Second TC Workshop (learning from successful applicants)
- ✓ July–August 2023: Working on my B1+B2 forms, getting feedback from colleagues, reading other researchers' proposals
- ✓ September 15, 2023: Third TC Workshop, feedback on my B1 (the harshest feedback so far 😞)
- ✓ September–October 2023: Major revisions of my B1/B2, budget/annex preparations, additional feedback from ELISS/PRCP/FSV UK and other colleagues
- ✓ October 24, 2023: Grant submitted (yay!)
- ✓ March 7, 2024: Decision on step 1 and an invitation to the second round (interview)
- ✓ April–May 2024: preparation for the interview, consultations, mock interviews
- ✓ May 22, 2024: ERC interview
- ✓ July 15, 2024: Decision on step 2 (I have got the grant; yay!); start of the information embargo
- ✓ July–August 2024: Grant agreement preparation
- ✓ September 5, 2024: End of information embargo, official announcement of ERC StG results
- ✓ October 14, 2024: Grant agreement signed
- January 1, 2025: Grant starts

EVALUATION CRITERIA

<p>Criterion 1 - RESEARCH PROJECT</p> <p>Ground-breaking nature and potential impact of the research project</p> <p>To what extent does the proposed research address important challenges?</p> <p>To what extent are the objectives ambitious and beyond the state of the art (e.g. novel concepts and approaches or development between or across disciplines)?</p> <p>Scientific Approach</p> <p>To what extent is the outlined scientific approach feasible bearing in mind the ground-breaking nature and ambition of the proposed research?</p> <p>To what extent are the proposed research methodology and working arrangements appropriate to achieve the goals of the project?</p> <p>To what extent are the proposed timescales, resources and PI commitment adequate and properly justified?</p> <p>Criterion 2 - PRINCIPAL INVESTIGATOR</p> <p>Intellectual capacity and creativity</p> <p>To what extent has the PI demonstrated the ability to conduct ground-breaking research?</p> <p>To what extent does the PI provide evidence of creative and original thinking?</p> <p>To what extent does the PI have the required scientific expertise and capacity to successfully execute the project?</p>
--

Panel comments (1 page) + 8 reviews (shortest ½ page, longest 1,5 pages)

PANEL SCORE AND RANKING RANGE

<p>Final panel score: A (fully meets the ERC's excellence criterion and is recommended for funding if sufficient funds are available)</p>	<p>Ranking range*: 1%-34%</p> <p>For your information, only the top 36% of the proposals evaluated in panel SH2 in Step 2 were funded.</p>
--	---

* Ranking range of your proposal out of the proposals evaluated by the panel in Step 2, in percent, from 1% for the highest ranked proposals to 100% for the lowest ranked.

Interview

- Each panel has a different format (in my case, a 3-minute presentation without slides, then 22 minutes interview)
- I spent one month preparing for the interview, about 1 hour daily
- I did 4 mock interviews + 1 TC workshop + 4 one-on-one presentation/feedback sessions
- Critical: good technical setup, proper room, audio-visual testing, perfect internet connection (+ back up), IT assistance, comfortable setup (standing!)
- 3-minute presentation: 440 words

Collaboration

- attend workshops
- organize presentations and mock interviews
- seek critical, tough feedback both on the written proposal and on the oral presentation
- work with ERC grantees & colleagues from abroad
- there were at least 35 people who attended my presentations and/or provided me with written feedback, and many others who participated in externally organized workshops (incl. TC workshops)
- responsibility is 100% yours, but you need others to succeed <3
